

# Now I just need to figure out how to farm salmon in my bathtub....

MOOD:  accomplished

MUSIC: Neko Case - Make Your Bed

Home-made sourdough bagels sprinkled with kosher salt are my new favorite food.

Also, my tomato seedlings are starting to poke their tiny heads out of the egg carton I started them in. I used a clear plastic egg carton, the trifold kind. Instant tiny greenhouse! I'm so smart.

I guess that means I need to get on the process of modifying their bucket, because they will need it when it's time to move outside. I wonder how soon I can get strawberry seedlings.

Also, it's a damned good thing we're not going out dancing tonight.  [trollcatz](#) (<https://trollcatz.livejournal.com/>), if you could see this bruise Wonder Woman left on my thigh this afternoon, you would look at her sadly for me. My only hope now is to parlay it into sympathy from Tasha, so she'll forgive me for going in to work tomorrow, "...where tiny girls beat me up!"

If I never see another casenote regarding an inconclusive autopsy in the American Southwest, I may sing a hosanna.

Also, via  [eljefe](#) (<https://users.livejournal.com/-eljefe-/>):

That sound you just heard was the collective nerdgasm of fifty million comics geeks.

Also? The Comics Code Authority Has Approved The Use Of Ozzy In This Trailer.

COLLAPSE

Oh. My. God.

That's one hell of a geekgasm!

Oooh, and my shoggoth came! I get to go play with dough as therapy now! Wheee! (Therapy because technology has not been my friend today.)

:(

I totally recommend the shoggoth bagels. I just used the pretzel recipe I linked previously, and made bagel shapes.

I'm making bread the first time, but I'm going to try pretzels next. Yay!

Oooo, can I have one of those bagels... OM NOM NOM NOM.

And I dunno about farming salmon, but lox -- or better, gravlax -- is way easy, as long as you've got the space in the chill chest.

I caught that trailer last night during Lost, but I have to say it again: OMG GREEKGASM.

And I've never even read Iron Man.

Speaking as someone who grew up reading Iron Man in the mid-70s, this trailer is way beyond GEEKGASM. It's like they took all the bits of Iron Man I loved as a kid and gave them an awesome update for the 21st century, while ignoring all the crap that's afflicted the book for the last quarter century.

Also, by how much did you cut down the sugar?

I wound up using only one tablespoon, which seems to come out just right.

Muah ha ha ha ha ha....

This is me, cackling like a maniac at the sheer awesomeness of this trailer.

This movie is going to rock so bloody damn hard.

Oh holy hell. I fucking love Robert Downey Jr.  
"yeah. I can fly."

I've never even read the comic and I cannot wait for this movie.

Farmer Chaz! You need a straw hat. With coyote ears. \*g\*

WW can't have beat you up THAT badly. You didn't limp, anyway...

Re Iron Man--I am so going on opening day. Vrrrooom. (And I never *liked* Iron Man much, even.)

You wanna sample my tomatoes?

If you don't want my biscuits, baby, don't shake my tree?

(Hey, it's a whole new genre of blues euphemism! And why has no one written "Mixed Metaphor Blues?"

Seriously. I planted the black Russian heirloom ones.

I hope they make fruit.

How long does it take for tomatoes to grow up?
